Salt Lake City, UT 84116

RECEIVED  
MAY 04 1982

Dear Mr. Smith:

DIVISION OF  
OIL, GAS & MINING

Enclosed is the White River Shale Oil Corporation's (WRSOC) Mining Permit application. This permit application is submitted by WRSOC for Phase I of our proposed three-phase project and is in compliance with the State of Utah Mined Land Reclamation Act, Section 40-8-13. WRSOC will submit a Mining Permit Application to the Utah Division of Oil, Gas and Mining (UDOGM) for Phases II and III of our project as soon as the required information becomes available.

It should be noted that the mine development design presented in the permit application is preliminary and subject to possible changes as the detailed design proceeds. However, UDOGM will be notified of any design changes as expeditiously as possible. In any case, it is not anticipated that any change to the mine development design would affect the proposed reclamation/revegetation activities contained within WRSOC's permit application.

If you or your staff have any questions concerning this permit application, please contact Mr. Ralph A. DeLeonardis, WRSOC's Permit Coordinator.

Sincerely,

*James W. Godlove*

James W. Godlove
